The Canadian Association of Cardiovascular Prevention & Rehabilitation (CACPR) provides numerous opportunities to interact and engage with an influential community of cardiovascular prevention and rehabilitation professionals. Our membership encompasses a wide variety of professionals including physicians, physiotherapists, nurses, exercise professionals, dietitians, pharmacists, and psychologists. Our delegates are healthcare professionals, directors, policy makers, researchers, educators, and students looking to improve their knowledge and increase their awareness of products & services. Our members look to CACPR to help educate and showcase emerging trends in professional education and innovation.

CACPR has embraced virtual technologies to deliver professional education as evidenced by the success of our virtual spring conference in 2021. As we plan for the upcoming 2022 CACPR spring conference, we encourage you to consider partnering with CACPR to offer a quality, professional education program.

The CACPR Annual Spring Conference is planned for June 3-4, 2022 using a virtual platform. The overall theme of this year's program is "**Cardiac Rehabilitation in the 21st Century: Future directions with focus on patient centered care**". We will feature the Terry Kavanaugh Lecture, clinical guideline updates, and put a call out for abstract submissions and host a virtual poster session featuring Canadian researchers. Topics during sessions will include depression, heart failure, cardiac risk factors including hypertension, SCAD, HIIT, sleep, Indigenous cultural safety in health care & Cannabis.

By sponsoring CACPR events and products through an unrestricted educational grant, you will have maximum exposure to leaders in the field of cardiac rehabilitation and prevention. Please consider the following opportunities available to your organization. We look forward to partnering with you.

Sincerely,

2022 CACPR Spring conference planning committee:

Anne Pistawka, Jacqueline Gabelhouse, Kathryn Brisco, Jordelle Dupre, Michelle Ungaro, Dr. Jordan Webber, Dr. Kevin Pistawka, Dr. Gordon Fogg, Dr. Colin Yeung, Jennifer Harris, Tracy Selway, Alex Santos, Julie Cinel

| Sponsorship Level & Benefits | GOLD \$7500 | SILVER \$5000 | BRONZE \$2500 |
