

International Council of
Cardiovascular Prevention
and Rehabilitation (ICCP)

Promoting Patient Participation in Cardiac Rehabilitation eLearning module

EARN 0.5 RCPC CPD CREDITS

We invite physicians, nurses, NPs, PTs and other disciplines treating cardiac inpatients to take a free online module on promoting your patient participation in cardiac rehab.

The brief course outlines the nature and benefits of CR, as well as specifies which patients should be referred. Most importantly, it conveys how you can provide strong, positive endorsement for your patients to participate in CR at the bedside (point-of-care checklist provided within the course for you to download as well).

By the end of this module, you will be able to:

1. Understand the nature and benefits of CR participation
2. Recognize patients who are indicated for CR and should be encouraged to enroll
3. Convey key CR information to your indicated patients and strong endorsement to participate
